(Pty) Ltd

How to set up a DBS44 Bell Signalling Card

1. The DBS44 Bell Signalling Card (Bell Card) must be installed in a position to power up the card and if possible to ring bells.

2. Remove the power from the Bell Card.

3. Plug the programmer in at CON2 on the Bell Card.

4. Restore power to the Bell Card and within 2 second press the "Link" option on the LCD display.

5. Once the DBS44 Programmer is linked to the card, it will display the station ID and functions of the 9 & 11 buttons programmed on the Bell Card.

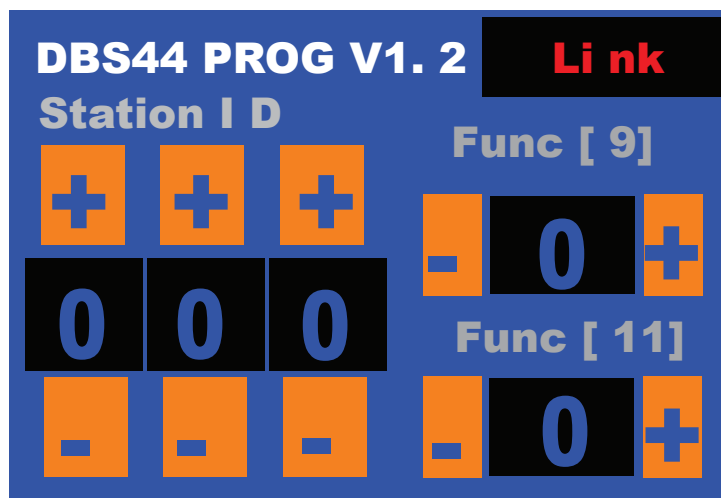

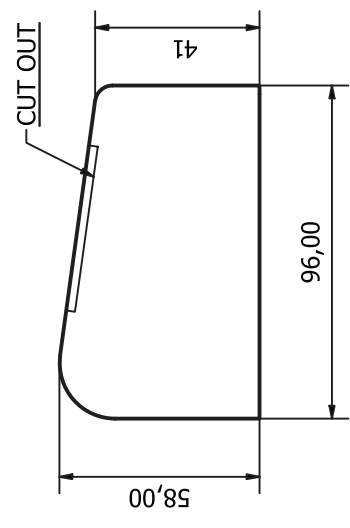

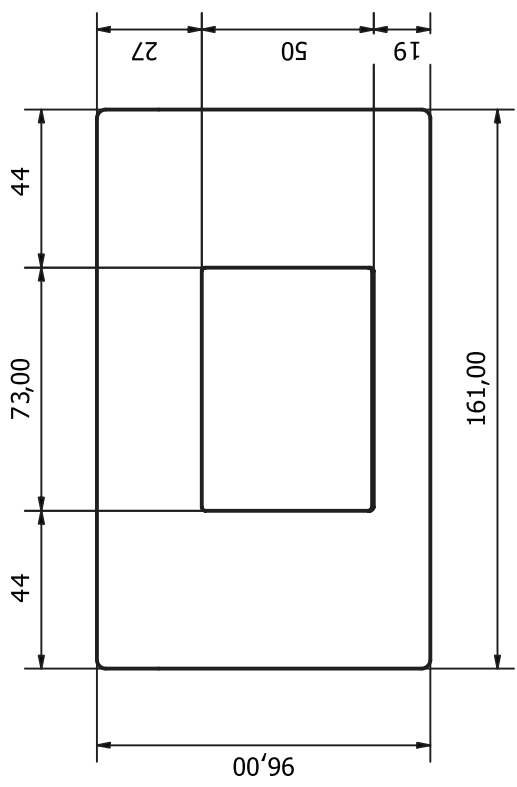

6. Press the respective + or − to adjust required station ID and functions for the 9 & 11 buttons.

7. Fault indication:

•Func [9] & [11] indicate "0" – No link was established, restart at 2

•Station ID displayed as " / / / " – No station ID was programmed. The station ID must be programmed for the DBS44 Bell Card to function correctly.
