CLIN-L

Basic Lock, left handing

When mounted on the front of the circuit breaker, this lock allows or prevents switching of the breaker.

- Special spindle sizes available on request
- Optional available with locking lever
- Left handing operation

mGard range

mGard is the ultimate range of robust mechanical trapped key products. Trapped key technology offers purely mechanical access locks (removing the need for expensive wiring). mGard offers an extensive variety of modular interlocking solutions. Suitable for use in applications up to SIL3 (EN/IEC 62061), Category 4 and PLe (EN/ISO 13849-1), mGard is ideal for use in harsh environments and is tested to 1,000,000 operations.

Technical Specification

Lock construction	Zinc alloy with a durable satin-chrome finish to the lock casing. The internal lock components are made from stainless steel. Non drive spacers are made from PTFE. (CLSS locks have a full stainless steel lock casing)
Key	Stainless steel (purchased separately)

Article Codes

Type	Part N°
Breaker Lock, left handing	CLIN-L
Movement	Part N°
Clockwise	C
Anti clockwise	A
